

## Introduction

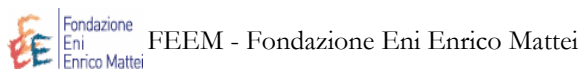

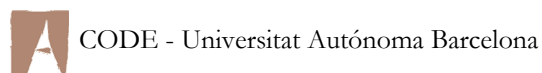

The University of Warwick, on behalf of the Coalition Theory Network formed by CODE, CORE, EUREQua, FEEM, GREQAM and the University of Warwick, has organised the 11th Coalition Theory Workshop.

For this edition, we will have a special theme of the dynamic coalition formation and structure of social relationships, including inequality and its consequences.

The 11th Coalition Theory Workshop is sponsored by:

- the Department of Economics of the University of Warwick
- UNINET, a European Commission funded network on unifying network theory
- the British Academy and
- the Association for Public Economic Theory.
